

TAKE CHARGE OF THE VISUAL IDENTITY - AND SAVE TIME

PresentationEngine

Are you looking for a tool that ensures that your organisation's visual identity is presented with a consolidated image and a tool that ensures significant time savings when working with PowerPoint presentations? PresentationEngine is a ground-breaking solution for PowerPoint, which fulfils both needs. You can read more about PresentationEngine features here. PresentationEngine always adapts to specific requirements and demands.

With PresentationEngine, efficiency when working with PowerPoint is increased significantly and therefore you will find that your investment quickly pays for itself.

Stringency in the visual identity

Do you want to communicate with greater conviction? PowerPoint presentations are an important communication tool, which is frequently used by employees in the majority of organisations. PresentationEngine ensures that your organisation is always presented with a consistent visual image. In this way, greater brand awareness and impact is achieved externally for the organisation.

SkabelonDesign develops templates and Brand Management Tools for Microsoft PowerPoint, Word, Excel and Outlook with two primary goals in mind – to promote a strict application of the visual identity in the organisations' communication as well as streamline employees' work with Microsoft Office.

Our solutions; PresentationEngine, WordEngine, ExcelEngine and CorporateSignature, are unique tools that help users to prepare and professionalize work in Microsoft Office.

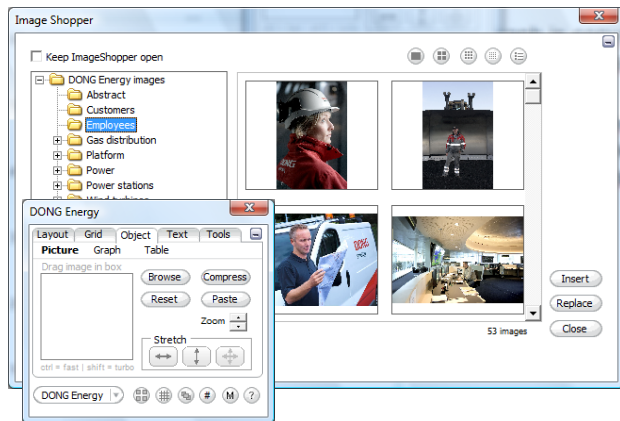

Are you looking for full control and overview of how employees use the organisation's visual image in PowerPoint? PresentationEngine is managed centrally and provides you with 100% control over the design and updates of the content of the templates, such as diagrams, tables, images and text. The result is greater overview and also a more flexible solution.

Full integration in PowerPoint

PresentationEngine is integrated directly into Microsoft PowerPoint as an extra menu point with your organisation's name. Through the menu point, the users have access to existing standard presentations, templates and all the readily available functions.

Image editing

Would you like to save time on image editing and correct placement in PowerPoint presentations? Now, your employees no longer have to spend unnecessary time editing images and placing them correctly in the presentations. With PresentationEngine it is easier than ever before to add and edit images in just a few minutes without prior processing in other programmes. Adjust the width and height of your images, use the zoom function and compress.

Select an image in any format from the corporate image bank or any other local location. Apply the user-friendly features to stretch, zoom, pan and compress the image.

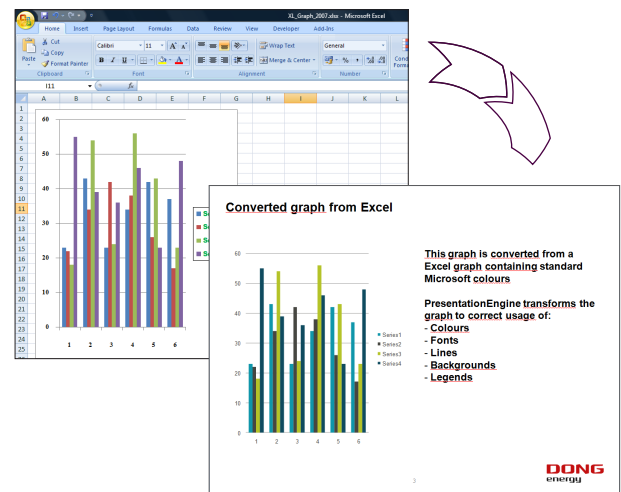

Sharing tool

Do you need to share best practice presentations across departments and product areas? Pre-sentationEngine contains effective sharing tools which enable employees to pick out entire slides or elements from standard presentations and, in a short space of time, create attractive and professional presentations with the basis in reusing and standard content – without spending time searching for the presentations and without opening them. Thus, you avoid unnecessary waste of time and duplication of work.

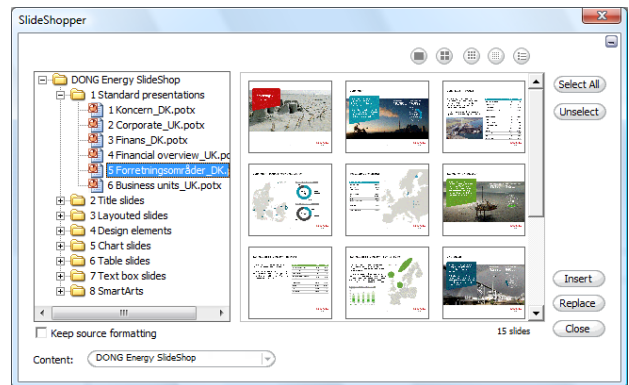

SkabelonDesign has 480,000 users worldwide, made up of small, medium and large organisations. Our solutions are used by A. P. Moller-Maersk, Carlsberg, Coloplast, Danisco, Confederation of Danish Industry, DONG Energy, Egmont, FLSmidth, The National Danish Police, Rambøll, The Capital Region, TDC, VELUX, Vestas and 6 ministries and 8 municipalities.

Tables, figures and graphs

Would you like to be able to transfer figures, graphs and tables directly from Microsoft Excel to the PowerPoint presentation that match the guidelines of the organisation's visual design without prior processing in other programmes? PresentationEngine manages this challenge as well, with just a few clicks.

Wrongly formatted graphs made in Excel are automatically formatted correctly according to the corporate design guidelines when inserted into your PowerPoint presentation.

SlideShopper makes it easy to share best-practice slides and presentations among all employees in the organization. Simply click on the desired slides in the preview to insert it into your current presentation.
